## Raychem Fibre-Optic Add-On Kit for HV Cable Accessories

# Raychem Fibre-Optic Add-On Kit for HV Cable Accessories

## Application

The Fibre-Optic Add-On Kit is designed to connect the glass fibres integrated in HV cables. The kit includes all components required to seal the cable jacket and the fibre-optic outlet securely and to protect the sensitive optical fibres that are housed inside the steel pipes.

The standard Add-On Kit is suitable for connecting two individual steel pipes each with a maximum of 24 optical fibres.

## Features

- The splice box is suitable for cross-bonding and straight-through joints
- Gel-sealing technology ensures reliable operation even when buried joints are used
- Superior fibre management
- The splice box is easy to open and close, without the use of special tools
- The kits are available for Raychem joints and terminations (outdoor and equipment terminations)

- 1 HV joint
- 2 Splice box for splicing the optical fibres
- 3 Two individual steel pipes
- 4 Sealing

## Typical kit content
